

SAFE • SUSTAINABLE • SMART

An ISO 9001:2015 Certified Company

Strikeco Batteries

Manufacturer of Sustainable & Reliable

Lead Acid Batteries & Chargers

www.strikeco.co.in

About Us

Being a renowned name in the power solution providing company, Strikeco manufactures safe, sustainable, & reliable lead acid batteries. The team behind the designing, performance & quality of the batteries works diligently aiming towards excellence & perfection. We are committed to offer best-in-class batteries and charges for the electric vehicle segment.

There is an ever rising demand for battery operated vehicle, which is subjected to extensive boost in terms of numbers. In order to serve electric vehicle users better, Strikeco is determined to offer both quality and quantity in the most cost effective ways. The expert R&D team ensures to add constructively to enhance battery life and its performance with every manufactured batch. Strikeco is determined to make deliberate efforts and contribute our bit towards environmental conservation and offering a safer tomorrow for upcoming generation.

TEAM

The team behind "STRIKECO" is of expert battery technologists with vast experience in the field of Lead Acid Batteries. Our engineers, product design and development team boasts of rich industrial exposure and experience. Having a strong grip in the market with our wide spread dealer's network the marketing team by now have worked with some of the biggest names in the industry.

VISION

Our mission is to offer the best quality lead acid batteries with a decent life span and minimum charging time. We aim to deliver prompt services and solutions for our clients that are globally compliant, technologically advanced, and intelligent for the dynamic present and uncertain future market in the electric vehicle industry.

MISSION

We aim to chase the technologically hyper active transition of fuel to electric mobility that takes us towards a sustainable future in a way that creates value for our customers, dealers, distributors, and employees. In the coming years Strikeco is determined to contribute in reducing carbon footprints, powering urban transport, and integrating renewable energy and achieve the goal of green planet.

Why Strikeco Battery?

- Efficient Designing
- Spill-Proof Batteries
- Easy Replacement
- Zero Maintenance
- Works In Any Orientation
- High Power Cyclic Usage
- Life Cycle: 400 cycles at 100% DOD at 25 oC

WE CATER TO

Kid's Electric Bike

Electric Motorcycle

E-scooter

Electric Tricycle

Wheelchair

Sweeper

Low-speed EV

Electric Forklift

Lift Truck

Lead Acid- 28 Ah Battery

Strikeco Lead Acid batteries are designed to deliver high performance with varied applications. Loaded with next-gen charging efficiency to minimize both ownership and maintenance cost. The improved life cycle of the battery offers compatibility for standby and cyclic applications.

Model	Voltage(V)	Nominal Capacity (Ah) @ 20hr	Dimension (in mm)			Weight (Kgs)	Terminal Type	
			L	W	H		(+)	(-)
JS 28-12V	12V	28	180	78	170	7.00	(+)	(-)

Lead Acid- 38 Ah Battery

Strikeco is the leading manufacturer & supplier of lead acid batteries in Madhya Pradesh. The performance, power, & reduced charging time makes it the first choice of every customer. Having easy application and adaptation in varied segments, along with competitive pricing Strikeco has become a known name in battery industry.

Model	Voltage(V)	Nominal Capacity (Ah) @ 20hr	Dimension (in mm)			Weight (Kgs)	Terminal Type	
			L	W	TH		(+)	(-)
JS 38-12V	12V	38	223	93	176	9.3	(+)	(-)

Features

- Absorbent glass mat technology for efficient gas recombination
- Maintenance free (no water topping-up required)
- No free acid (non-spillable battery)
- Can be used any orientation (excluding used inverted)
- The battery is designed for high power & high cyclic usage
- Its design life is approximately 400 cycle at 100% dod at 25 °c

CHARGER ⚡

Model	Rating	AC Input	DC Output	Feature
1. Lead Acid	60V/3A	220±20% VAC 176-264VAC	60V-3A	SC, OC, OV, RB, Plastic Box
2. Lead Acid	72V/5A	220±20% VAC 176-264VAC	72V-5A	SC, OC, OV, RB, Plastic Box

WORKING

Strikeco is proud of a team of experience and exposure, who do not compromise on quality at any cost. Everyone here efficiently understands the requirements and then cater to the specific problem with wide range of the solutions in the energy sector.

We offer reliable and sustainable lead acid batteries to a broad spectrum of applications like E- scooters and bikes, electric wheelchair and tricycle, kids electric bike, lift trucks, and floor cleaning machine.
